AKTYUBINSK IRBM COMPLEX, USSR
LAUNCH AREA NO 2

25X1A

*Launch Area No 1 (TDI name: Karakhobda IRBM Launch Site 1) -- Type IV 49-57-45N 56-51-15E

Launch Area No 2 (TDI name: Petrovskiy IRBM Launch Site 1) -- Type IV 50-00-30N 56-58-15E

Incomplete, with construction suspended.

25X1B 25X1B

This report supplements NPIC/R-207 64, 1/ which discusses the Aktyubinsk IRBM Complex, consisting of 2 Type IV IRBM launch areas, 1 with construction suspended and the other recently completed, and an associated rail-to-road transfer point.

Launch Area No 2 is situated in a rolling, somewhat barren area 18.3 nautical miles (nm) southwest of Aktyubinsk and 7.1 nm southwest of Petrovskiy, in the Kazakh SSR (Figure 1).

Launch Area No 1 was first observed in [REDACTED] and was not present in early [REDACTED]. In [REDACTED] the site was considered to be in an early stage of construction; subsequent coverage of the area indicates that the site has remained in substantially the same status of construction. Launch Area No 2 was first observed in late [REDACTED] and was not present in late [REDACTED].

Launch Area No 2 was considered to be complete. Launch Area No 2 is located 5.2 nm northeast of the incomplete launch area.

The launch site (Figures 2 and 3) is surrounded by triple fence security, with a fourth fence under construction. It is road served.

[REDACTED] Three buildings and an unidentified mound are located on the northern side of the site. Located in the northwestern corner of the site is an enclosed area which may be a motor pool, although no vehicles are discernible. Within the first security fence and surrounding the launch silos are open ditches, the purpose of which has not been determined. Mission 25X1D [REDACTED] reveals unidentifiable construction activity on the west side of the launch site. 25X9

The site support facility is enclosed by single fence security and is road served. To the west of this area is an athletic field with an unidentified tower at the south end. A nearby possible tent camp, shown in Figure 2, has been removed.

There is a rail-to-road transfer point located approximately 2.7 nm southeast of the Aktyubinsk Airfield. It consists of several large storage sheds served by a rail spur and a hard-surfaced highway.
